Champion To Corner Store

Rebuild 25 Miles Of Highway 23 This Year

No. 23 highway from Champion to the junction with No. 24 at the Corner Store 12 miles north of Vulcan will be rebuilt and graded this year. This information has been confirmed for the Advocate by Hon. Rev. Peter Dawson, member for Little Bow in the provincial legislature. Mr. Dawson also advises that the highway from Barons to Champion, which received the stabilized base course last year, will be asphalt black-topped this summer.

The stretch of highway from Champion north to the Corner Store, is as any motorist can testify, in very poor condition. Its construction is below the standard required for hard-surfacing. A Department of Highways crew has already moved to Vulcan and their job will be to supervise the rebuilding and widening of this 25-mile stretch of highway and it is expected that the stabilized course will be applied next year.

Announcement has also been made that No. 2 four-lane highway south from Calgary will be extended a further ten miles south to connect up with No. 23 one and a quarter miles east of High River and with No. 2 going south to Nanton. It is understood that the government will construct a hard-surfaced connecting road to High River.

Although no definite announcement has been made, it is understood that No. 23 highway from the Corner Store to its junction with No. 2 east of High River will be hard-surfaced before the black-top is extended northwards on No. 24.

Seventy-five young skaters participated in the annual ice carnival sponsored by the Vulcan Figure Skating Club last weekend, with performances being given Saturday and Sunday afternoon. The show was directed by Mrs. Roberta Davis.

Two duo acts featured instructor Mrs. Davis, Wineva Speer and Dianne Parker.

The Wheel of Chance, caterpillars, acrobats, dancers, strong man, fat ladies, skinny lady, monkeys, ballet dancers, cowboys and gypsies were all portrayed by the young skaters, who ranged in age from four years up. SPRING

When Mother Nature warms the air,
I'll hurry out to get my share;
For winter's gone and spring has come,
And now's the time to have my fun.
I'll watch each bird make its nest,
Then I'll decide which is the best.
But spring's not here, at least not yet,
And tired of waiting I'll never get.

GOOD FRIDAY, MARCH 30

Good Friday, marking the advent of the Easter season, this year occurs on March 30. This will be a public holiday, with most business places closed.

A number of people interested in the progress and betterment of children's education, can only indicate how important such an organization is in any community, and Olaf Larsen, who has devoted a large part of his time to public relations work, is well qualified to speak to this subject.

Besides these speakers the members of the County School Committee will be present and any parent having specific problems will have an opportunity to meet these members.

Galbraith Named Sub-director

Ask Retention of FUA Sub-district Organization

The annual convention of Sub-district 5, District 12, Farmers Union of Alberta was held in the IOOF hall, Vulcan, on March 13.

Sub-director Mrs. E. Smith was in the chair for the joint FUA-FWUA session; Mrs. F. H. House was in charge of the FWUA session and James Derrick of the FUA session.

Mrs. House, who is FWUA director, addressed the joint session on the efforts & achievements of both the FWUA and FUA in the interests of agriculture. James Derrick, FUA director, gave a brief summary of the last board meeting attended, stating that District 12 had risen from ninth to third place in membership. He discussed the price of farm machinery and the box car situation, saying there is reason to believe shipping conditions will show considerable improvement this year. Mrs. Archie Hogg, alternate FWUA director, stressed the importance of 4-H Club work and hoped that some way would be found to coordinate this work with that of the Jr. FUA.

At the ladies session, it was decided that this section of the sub-district conference would be discontinued in future, but an East FWUA conference would be held each fall. Mrs. Zole Webber was chosen as secretary for the conference.

At the opening of the general session in the afternoon, Rev. J. S. Clarke gave the invocation and Mayor W. D. Allan welcomed the delegates to the town of Vulcan.

Discussion was held on a hospital for the aged and chronically ill and a decision was made to ask a representative of the Department of Health to address a meeting in Vulcan on this subject.

Mrs. Olive Douglass, provincial first vice-president and a member of the committee which presented resolutions to the provincial cabinet reported that the committee had received many favorable replies to their requests. Mrs. E. Smith gave the Sub-district 5 report, stressing the value of a large membership and stating that the weight of increased membership was felt when briefs were presented to the cabinet in 1955. The sub-district organization, set up on trial basis for one year, has proved very successful. Under the sponsorship of the executive committee, five locals acting as a group have started four projects, namely: Co-operative buying; Use of National Film Board pictures at meetings; Sponsoring the movement to have a Chronic hospital or home for the aged established in the County of Vulcan. Establishment of a credit union in the sub-district.

THE WEATHER

In a sudden reversal of form, the mercury soared as high as 60 above last weekend and spring-like weather prevailed until Tuesday. Tuesday and Wednesday were cloudy, with temperatures in the 30's.

Sponsored by Ladies Guild

Latest Spring Styles Displayed At Annual Easter Fashion Show

Despite poor road conditions, Vulcan and district ladies, doubtless anxious to get a glimpse of things spring-like after a long and cold winter, turned out Saturday afternoon to attend the Easter tea and fashion show, sponsored by St. Aldhelm's Church Guild. The beautiful clothes modelled were shown by the Betty Ann Ladies Shop.

All the lovely colors of spring, fashioned from the latest materials and in the newest styles, evoked many remarks of admiration. Smart suits and coats of fine wools and wool combined with other materials; chic afternoon frocks in lovely shades, to combine with beautiful accessories; sports clothes for the carefree activities of summer; gay wisps of veiling and straw combined to fashion exceedingly smart Easter bonnets; and of course, everything to delight the hearts of the teen-agers and small sister alike.

Mrs. Mae Todd, in her usual interesting and chatty manner, gave the highlights of each ensemble as they appeared. Soft background music for the entire show was provided by Mrs. Winnie Elder at the piano.

Christmas Seal Campaign Shows Returns of \$2,074

The final report of the 1955 Christmas Seal campaign conducted by the Vulcan Tuberculosis Association under the sponsorship of the Vulcan Lions Club shows total returns for the campaign of \$2,074.50. A total of 1,750 appeal letters were sent out last November; the return per letter was \$1.19 and the return per contributor was \$2.26, a decrease of ten percent from the previous campaign.

Dr. A. D. Tompkins was chairman of the Lions Club committee which conducted the campaign and L. D. McQueen was auditor.

Funds raised through the sale of Christmas Seals are used in case-finding, early diagnosis, rehabilitation of afflicted persons and various projects under the heading of preventative measures and health education.

Canadians take justifiable pride in what has been accomplished in this country in attaining freedom of speech, freedom of worship, freedom from want, and freedom from fear. But much remains to be done before we can say that we have conquered disease—and particularly tuberculosis, which in spite of recent advances, still remains one of our major health problems.

The effectiveness of tuberculosis control still depends in considerable measure on the generosity of the public and the Vulcan Tuberculosis Association wish to express their appreciation of the support given by the public in this county.

Guest Speakers
A film and lecture on 'Family Relationships' were presented by the guest speaker, Dr. Woodsworth of the University of Alberta, Calgary Branch. The film dealt with shyness in children and with mental health and proved most interesting.

Resolutions
A motion was passed that the Sub-district 5 organization as established in 1955 be maintained on a permanent basis and be written into the Farmers Union constitution. This organization includes provision for a sub-director to be elected at a sub-district convention, division of the sub-district into four groups, each with a leader, and the formation of a sub-district executive committee to coordinate the work of the locals and assist where needed.

Mrs. E. Smith, present sub-director, declined the nomination and Douglas Galbraith of Vulcan West local was elected sub-director by acclamation.

Assisting Mrs. Ruth Northeott and Mrs. Uretta McIver in the dressing room were Mrs. Margaret Richardson, Mrs. S. Joine and Mrs. Shirley Franks.

Mrs. Northcott and Mrs. McIver were presented with bouquets of flowers by the Guild at the conclusion of the show.

The bake sale and tea were also very well patronized.

THE NEW JOHN DEERE "80" DIESEL

Offers You Big-Capacity . . . Outstanding Economy

It's another John Deere Power-Steering Tractor

The Model "80" Diesel is a powerful new John Deere Tractor with the brawn to plow a six-foot strip . . . to handle twenty-one feet of double-action disk harrow . . . to pull double hookups of hydraulically controlled field cultivators, tool carriers, rod weeder, grain drills. Here's capacity that will greatly increase your daily work output—that may even save you the cost of a second tractor and driver.

Along with its big capacity, the new Model "80" offers you amazing economy on both fuel and maintenance. In factory fuel-economy tests, it measured up in every way to the championship performance records set by other John Deere Diesel Tractors tested at Lincoln, Nebraska. Its simple, rugged two-cylinder engine design and its high-quality construction insure years of low-cost service. Stop in soon and see the new "80" Diesel!

We now have the New "LZ" Grain Drill on Display

1. The hoe opener penetrates and clears trash, placing all seed in the ground, whereas other openers tend to ride over trash and deposit some seed on the surface.
2. Seed is all placed in a wider trench in moist soil. Hence there is quicker, more uniform germination and uniform stands of grain through to maturity.
3. Drill can be greased in five minutes.
4. Hoe openers have longer life and lower replacement cost.

5. Plugging is eliminated. Hoe openers are arranged in three rows for improved trash clearance.
6. Solid, convex press wheels, almost dust-free in operation. Drilling speeds up to 6 m.p.h. have been reported.
7. Better germination and sturdier growth reduce actual space between rows to less than 5 inches. Swath carrying ability of the stubble is therefore excellent.
8. Available in two sizes, 12 ft. and 14 ft. Also can be used as duplexes.

How can YOU benefit from having a Current Account?

You'll find it much easier to keep an accurate record of your current expenses when you have a Current Account.

When you pay all bills by cheque on your Current Account, you receive back, at the end of each month, all your cancelled cheques as well as a bank statement showing every withdrawal and every deposit you have made. The cancelled cheques serve as receipts—and are accepted in court as evidence of payment of the amount shown. Furthermore, they are much easier to file away than receipts and take less room to store. With them and your bank statements, you'll find it far easier to get an exact picture of how you spend your money.

So it's a good move to use a Current Account for paying all current bills—and keep your Savings Account for actual savings.

MAJORVILLE

Mr. and Mrs. Lloyd Jacobson and family of Enchant visited with the latter's parents, Mr. and Mrs. G. Heather last Sunday. Word was received this week of the death of a former resident of the district, Mrs. Cora Hostetler of Aberdeen, Washington, U.S. Mr. and Mrs. Jake Hostetler came to the district from North Dakota in the 1920's and farmed the land now owned by Mr. and Mrs. Alf Heather. Owing to ill-health of Mr. Hostetler, they moved back to Washington, where Jake died in

1935. Mrs. Hostetler was in her early eighties and had lived alone for some years until her death. She is survived by a son Forest, in the States and a grandson Roy Hostetler of Lomond, two great-grand-children, and a sister, Mrs. Winnie Miller of Calgary.

Lutheran W.M.F.

The meeting opened with the singing of 'Sweet Hour of Prayer,' followed by the Lord's prayer.

Twenty dollars will be sent to the budget and it was also decided to send \$300 towards payments on the parsonage at Lomond. The meeting also decided to contact the Lomond and Enchant groups to see to having the remaining floors in the parsonage (as yet uncovered) covered with congoletum, each group paying a share. The coming convention in Minneapolis in June was discussed and it is hoped someone will be able to attend.

Pastor Foster continued with the letters of Peter and his subject was the growth of a Christian.

The hostess assisted by other members served a lovely lunch. Next meeting will be held at the home of Mrs. Miles Clemmons.

Elevator Agent Receives Certificate

Mr. G. A. THOMPSON of the Pioneer Grain Company Limited at BRANT, Alta., has been awarded a Ten Year Elevator Master Merit Certificate. This award is granted by Grain Insurance and Guarantee Company in recognition of proficiency in the care of grain elevator premises and to earn this, an elevator agent must have a perfect record of ten consecutive years.

Inspections of all plants insured by Grain Insurance and Guarantee Company are carried out by Affiliated Inspection Bureau Limited. This organization for the past twenty years has majored in the inspection of grain elevators, flour and feed mills and other properties, and its service is acknowledged as being thorough and exacting. Winning the award is therefore recognized as a definite achievement by the grain trade generally.

One of the first to make a profit on Alberta oil was John "Kootenai" Brown who collected oil seepage near Waterton Lakes in 1886 and sold it for \$1 a gallon to be used as machinery grease.

As The Tree Grows —

The Wheat Pool movement was launched in Western Canada because grain producers were determined to take decisive action to correct abuses in the grain handling and selling business.

The pioneer grain farmers had it in their minds to form organizations which would be truly co-operative, would provide a measure of price protection, would safeguard grain producer members against exploitation and would be under the constant control of the membership.

The Pool movement has now been in existence for a generation. It has faithfully followed the purposes of its founders, the pioneer co-operators. The movement has established itself as one of the greatest efforts in self-help ever undertaken by a large group of farmers anywhere in the world.

The Wheat Pools have rendered exceptional service and provided substantial savings for the membership, over a long period of time. They have justified the faith and loyalty placed in them by many thousands of farm people across Western Canada.

The Alberta Wheat Pool started out with \$8 1/2 million in capital, provided by the original members. Financial accomplishments from earnings, when current distributions have been completed, will be:

Paid cash patronage dividends	\$ 7,274,000
Redeemed reserves in cash	10,309,000
Paid Alberta Government for 1939 overpayment	5,848,000
Paid interest on overpayment	3,333,000
Investments in fixed assets, approximately	11,000,000
Working capital acquired, approximately	7,000,000

In addition to cash payments of \$7,274,000, member patrons will have received up to and including 1954-55, \$11,842,000 in reserve credits, making a total distribution of \$19,116,000 in patronage dividends from earnings.

It is unfortunate that present plugged conditions of 1955 elevators and the method employed in car distribution, have prevented Pool members from patronizing Pool elevators in many instances.

When conditions change and space is available Pool members should make it a point, for their own interests, of delivering their grain to an Alberta Pool elevator.

The Court Jester coming next week. Danny Kaye, chosen International Comedian of the year, will appear on the screen of the local theatre next Tuesday to Saturday in his latest picture "THE COURT JESTER." Glynis Johns, the English beauty, plays the femme role opposite him with Basil Rathbone as the villain. The production, said to have cost four million dollars, looks it, and some of the scenes of Kaye swinging along the castle wall on a rope give breathtaking realism in the new process of Vista-vision. Kaye's talent as a comedian is shown to great advantage in a scene of the King's men questioning him, in which he appears disguised as an old man. Highly amusing too are the fantastic military formations at the Knighthood ceremony, and the dwarfs raiding the castle, thereby saving Miss Johns. From the opening scene to its conclusion 101 minutes later, proof is offered that only the theatre screen with its big effects in photography and sound, can do justice to a picture of the quality of the "COURT JESTER."
